

FirstNet

Public Safety Advisory Committee

WHAT IS THE FIRST RESPONDER NETWORK AUTHORITY (FIRSTNET)?

Signed into law on February 22, 2012, the **Middle Class Tax Relief and Job Creation Act (Act)** created the First Responder Network Authority (FirstNet). The law gives FirstNet the mission to ensure the building, deployment, operation, and maintenance of the first high-speed, nationwide wireless broadband network dedicated to public safety. FirstNet will provide a single interoperable platform for emergency and daily public safety data communications.

FirstNet is an independent authority within the U.S. Department of Commerce's National Telecommunications and Information Administration. FirstNet is governed by a 15-member Board consisting of the Attorney General of the United States, the Secretary of Homeland Security, the Director of the Office of Management and Budget, and 12 members appointed by the Secretary of Commerce. The FirstNet Board is composed of representatives from public safety; local, state and federal government; and the wireless industry.

WHAT IS THE PUBLIC SAFETY ADVISORY COMMITTEE (PSAC)?

Under the Act, FirstNet was required to establish a **Public Safety Advisory Committee (PSAC)**. In 2013, FirstNet established the PSAC consisting of 40 members who represent organizations from all disciplines of public safety as well as state, territorial, tribal, and local governments. There are also at-large members and a federal member.

The mission of the PSAC is to assist FirstNet in carrying out its duties to ensure the building, deployment, operation, and maintenance of the nationwide public safety broadband network (NPSBN) in matters involving shared intergovernmental responsibilities or administration. Specifically, the PSAC:

- Offers FirstNet guidance, information, and subject matter expertise, from a public safety perspective, to ensure that needs, requirements, and operational constructs necessary for critical public safety capabilities are included in the envisioned network
 - Provides subject matter expertise on concepts (e.g., policies, procedures, technologies, operational methods, etc.) developed by FirstNet
 - Conducts regular meetings to remain informed and up to date on FirstNet's progress
-

WHAT IS EXPECTED OF A PSAC MEMBER?

PSAC members represent key stakeholder groups. PSAC members serve on a voluntary basis and may be asked to participate in task teams and working groups to contribute to concept documents and recommendation reports based on their experience and expertise. Participation in the PSAC is critical to assist FirstNet with the establishment of the NPSBN. PSAC members are expected, at a minimum, to attend two webinars and two in-person meetings per year. In addition to these four core PSAC meetings, there are also working group and task team in-person meetings and conference calls. Members are expected to keep their stakeholder groups informed and updated on PSAC activities that help to address the need to develop better technologies and processes for the multi-jurisdictional and cross-disciplinary coordination of existing systems and future networks.

WHAT ARE THE CURRENT PSAC EFFORTS?

Participation as subject matter experts on task teams and working groups is topic specific and continues until final reports or recommendations have been submitted to FirstNet by the PSAC Chair after receiving input/feedback from the full committee. Current ongoing efforts include:

Task Teams

Priority and Preemption: FirstNet is seeking advice from PSAC regarding an initial framework for implementing access prioritization, user preemption, and prioritized application use on the NPSBN.

Public Safety Grade: FirstNet is seeking advice from PSAC regarding an initial methodology and framework for prioritizing and implementing public safety grade hardening recommendations for the NPSBN.

User Equipment: FirstNet is seeking advice from PSAC on functional objectives for and ergonomic considerations of Band 14 broadband user equipment that will meet the operational needs of first responders.

Working Groups

Tribal Outreach, Education, and Consultation Strategies: A Tribal Working Group (TWG) comprised of representatives from a broad cross section of multi-tribal associations was established to provide FirstNet advice on tribal outreach, education, and inclusive consultation strategies to ensure participation by tribal jurisdictions in planning for the NPSBN.

Early Builder Strategies and Lessons Learned: An Early Builder Working Group (EBWG) comprised of representatives from Adams County, Colorado; Los Angeles Regional Interoperable Communications System (LA-RICS), California; Harris County, Texas; New Mexico; and New Jersey was established to provide FirstNet with early builder strategies and lessons learned that will assist in planning efforts for the NPSBN.

WHAT ASSIGNMENTS HAVE THE PSAC COMPLETED?

Human Factors: The PSAC analyzed the long range impacts of the NPSBN on the manner law enforcement, fire, EMS, and public safety communications centers operate and how they may be better served in addressing their duties once the network is built and operating. The Human Factors Report, submitted in November 2013, is available on the [FirstNet website](#).

Application / Use Cases: The PSAC developed use cases to illustrate how the envisioned technology, network, and applications will support the incident response by discipline (e.g., emergency medical services, fire, law enforcement). These use cases, available on the FirstNet website, were incorporated into design modeling efforts conducted by the FirstNet technical staff.

Eligible Users: The PSAC developed a list of proposed eligible users of the NPSBN and related definitions, which was used to inform the public notices FirstNet released related to the definition and scope of public safety entities qualifying for use of the NPSBN.

WHERE CAN I FIND MORE INFORMATION ON THE PSAC?

For questions on the PSAC and its activities, please contact PSAC@firstnet.gov or visit the PSAC webpage.

FirstNet Board

Chair Sue Swenson
Vice Chair Jeff Johnson
Secretary of Homeland Security (Designee Suzanne Spaulding)
U.S. Attorney General (Designee Ron Davis)
Director of the Office of Management & Budget (Designee Geovette Washington)
Barry Boniface, Chris Burbank, Neil Cox, Jim Douglas, Edward Horowitz
Kevin McGinnis, Annise Parker, Ed Reynolds, Rich Stanek, Teri Takai
