

First Responder Network Authority (FirstNet) | Office of Communications | www.firstnet.gov

Transcript

FirstNet and the Law Enforcement Community

Dispatcher: 10-582, they're looking for a DUI motor on Adam Dex 7.

Officer: 10-582, 25th Street and Sylvia – I got a brown Ford Ranger pickup...

Announcer: At the scene of an incident, you need information.

This job requires you to be connected at all times.

The First Responder Network Authority (FirstNet) will build a network to give you the connectivity you need to make life saving decisions.

FirstNet is working to put the most advanced technology at your fingertips. Access to a reliable broadband network will connect you to databases to get the valuable information you need.

FirstNet will also connect you to other law enforcement partners in yours and other jurisdictions. Whether operating on a multi-agency incident, or simply sharing data between offices in your own department, FirstNet will bring law enforcement and other public safety disciplines together like never before.

Commissioner Bratton: We need a broadband network that can be built to mission-critical standards. We need a network that can survive a natural disaster and that won't be subject to problems of commercial overload. In short, we need you. We need FirstNet; it's that simple.

Announcer: First Responders need the very best tools we can put in their hands. First responders need FirstNet.
