

Transforming public safety communications

The First Responder Network Authority (FirstNet) has entered into a public-private partnership with AT&T to build the first nationwide wireless broadband network dedicated to first responders for use in disasters, emergencies and daily public safety work.

FirstNet provides initial funding, 20 MHz of spectrum and deep public safety expertise to the partnership. AT&T brings a proven track record and strong commitment to public safety, as well as the commercial expertise and nationwide resources to deploy, maintain and operate the network.

This 25-year partnership offers the best overall value to America and its public safety responders – both from an investment perspective and in terms of the lifesaving technology it will put in the hands of law enforcement, fire and emergency medical personnel in communities across the nation.

FirstNet will serve...

Technology first responders need to save lives, protect communities

MODERNIZED	PRIORITIZED	SPECIALIZED
<p>innovative app & device ecosystem</p> <p>network improvements & upgrades</p> <p>commercially proven cybersecurity solutions</p>	<p>emergency communications receive highest priority</p> <p>rapid buildout with public safety input</p> <p>nationwide public safety solutions leveraging existing infrastructure</p>	<p>robust coverage where public safety needs it</p> <p>connectivity for advanced mobile data</p> <p>24h highly available customer care</p>
