Assets**

**LMR-LTE
Integration**

Public Safety Feedback Leads to FirstNet Solution Enhancements

Additional granularity in network status map, including Band 14

Expanded subscriber paid eligibility

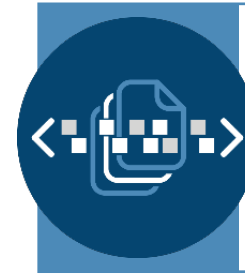

Release of a second mission critical push-to-talk (MCPTT) solution, as well as enhanced MCPTT features

Availability of Compact Rapid Deployables

Improved, consolidated billing experience via FirstNet and Family

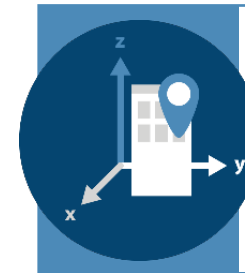

Availability of MCPTT console integration

Expansion of mission critical ecosystem to include mission critical data and video

Availability of in-building solution for public safety (i.e., agency-deployed RAN)

Z-axis (height above terrain) measurement now available in certain markets

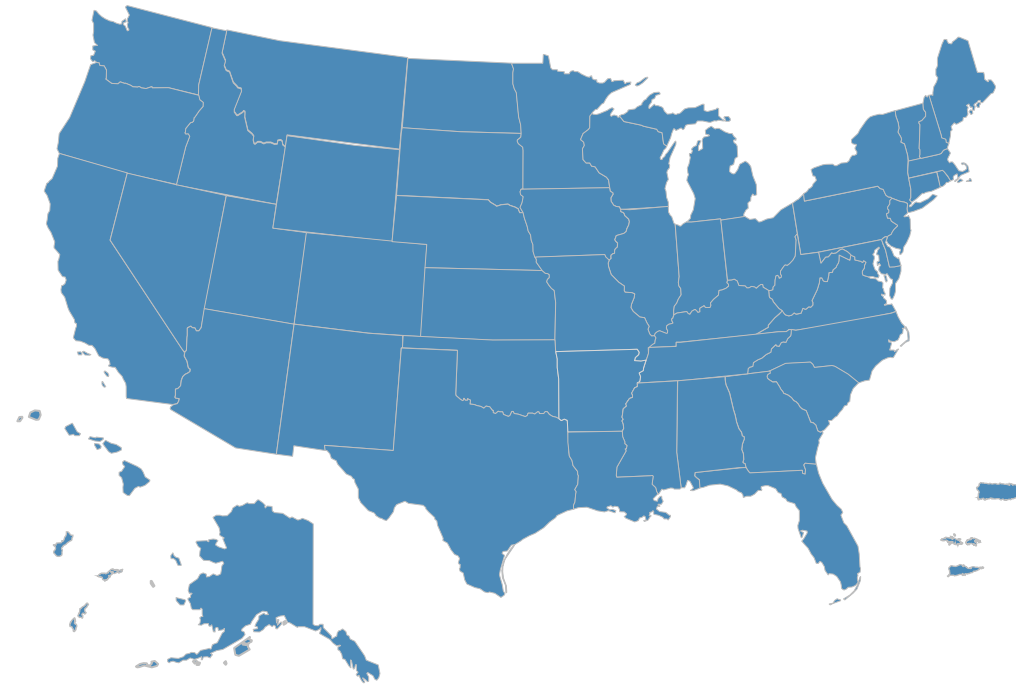

Discipline Engagement

- Provide outreach and education in support of adoption and retention on the network
- Understand public safety's current use of and need for products and services in various operational environments
- Provide subject matter expertise to help public safety modernize and evolve operations through FirstNet

State and Federal Engagement

- FirstNet Authority Progress Updates
- Customer Experience
